MAP Statement on PBBM's Call for Cabinet Members' Courtesy Resignations

May 22, 2025

In light of President Ferdinand R. Marcos Jr.'s call for a reset in key leadership roles in his Administration, the Management Association of the Philippines (MAP) underscores the value of principled leadership and accountability in driving progress and delivering meaningful results.

We understand the President's actions and intentions as this happens in business and the private sector. A CEO needs to make difficult calls, such as replacing talents, with the primary objective of improving the performance of the organization. Difficult as it may be, the call of leadership is to make such hard decisions in the interest of establishing meritocracy and encouraging performance. We hope the President will find the appropriate talents for those he decides to replace - - - people who can effectively execute his government's plans.

We trust that capable, proactive, and committed individuals will be empowered and work together as a cohesive team to execute the nation's plans to uplift the lives of all Filipinos and move us closer to the outcomes our people deserve.

ALFREDO S. PANLILIO
MAP President
